## Skills

Problem-Solving

Version Control

React.JS

Node.js

Google Firebase

OAuth2

Agile

## Summary

Software Engineer with 3+ years of experience developing high-quality software solutions. Highly skilled in JavaScript, React, Svelte, and Node.JS. Created an OAuth2 compliant server based on Firebase in 2 weeks to support multiple single sign on applications resulting new feature release 200% earlier than projected from March to January.

## Work Experience

### Junior Software Engineer, Instant Teams, Remote

February 2022 - Present

- Refactored and updated the entire routing component of a large-scale web application in 1 week eliminating the need for several components and reducing compile size by 25%
- Develop and maintain a library of npm packages that converted commonly used functions and types into reusable code, resulting in 90% reduction of bugs deployed to production.
- Work with existing and emerging technologies to create single page and complex applications.
- Designed and implemented a complex client/server software architecture to enable identity management across multiple platforms in 2 weeks.
- Maintain a Git repository for OAuth2 server front end and functions. Conduct github code reviews to ensure clean merges into staging and production environments.

### Junior Software Engineer, Bayside Church, Roseville, CA

January 2021 - December 2021

- Tested, deployed, new middleware applications for a multi-site non-profit in 2 weeks.
- Performed troubleshooting and debugging on deployed applications with a 63% increase in end user satisfaction.
- Developed database queries and stored procedures to optimize data access and integrity resulting in a 75% reduction in the number of errors users encountered.

### Social Media Manager, Bayside Church Granite Bay, Roseville, CA

September 2017 - January 2021

- Spearheaded the development of successful social media campaigns resulting in a 30% increase in engagement in 9 months.
- Developed and managed content calendars for multiple social media accounts that included engagement posts, live streams, and in person events.
- Created and managed social media campaigns every week to drive traffic, leads, and conversions.

## Education

### **Full Stack Development, Kenzie Academy (4.0)**

April 2020 - April 2021

### **BS Computer Science, Western Governors University (3.8)**

June 2023 - May 2024

The Bachelor of Science in Computer Science prepares students for a career in the high demand field of Computer Science. Upon program completion, students will apply their learned knowledge and skills in the designing, developing and optimizing of systems to meet current and future industry needs. The curriculum includes innovative courses in programming and logic, architecture and systems, data structures, project management, artificial intelligence, along with the theory and science of computing.

## Military Service

### **Sergeant**

May 2000 - July 2012

12 years of service, 2 Combat tours, 2 Humanitarian Aid missions

Awarded Army Commendation Medal

## Courses

### **Full Stack Development, Kenzie Academy (4.0)**

April 2020 - April 2021

### **Front End Web Development, Vets In Tech (4.0)**

July 2021 - August 2021
